

# Continuum Dance Project

## Experiments in 3

November 6+7 @ 8 pm | The Dance Complex

### What audience said about "Experiments in 3":

"This innovative and beautifully crafted evening of dance was both inspiring and energizing. It was wonderful to see the creative use of different spaces and to be able to move around and experience each piece from a different perspective. I hope we see more of the challenging and cutting edge work from Continuum Dance"

- Ros Thomas-Clark, Artistic Director, TC Squared Theatre Company

"The energy and spontaneous feeling was totally energizing.....The dancers are so skilled and beautiful to watch.....Thank you for a totally original aesthetic/artistic experience."

- Phyllis Bretholtz

"The performance was FANTASTIC! The choreography was surprising, sometimes disturbing - sometimes enchanting, and memorable. The dancing was remarkable -- the work of the group as a collective really came across and each individually is an amazing athlete/dancer."
